PENITENTIARY OR DEATH IN STORE OF BOY SLAYERS

Only Evidence to Mitigate
Punishment to be Heard
By Court

LAST TWO WEEKS

Parents Not Seeking Freedom
For Sons Despite Financial
Power

(By the Associated Press)
CHICAGO, July 22.—Death, life imprisonment or a penitentiary term of not less than 14 years are faced by Nathan Leopold Jr., and Richard Loeb whose pleas of guilty to kidnapping and killing Robert Franks have swept aside the carefully prepared insanity defense and thrown them on the mercy of Judge John R. Caverly.

Only evidence tending to mitigate the punishment can be submitted at the hearing which will be without a jury, beginning tomorrow. The prosecution which demands the gallows for the two university students who said they killed Franks by way of experiment, plans to examine 100 witnesses. The defense, hoping for a life sentence, expects to submit testimony of alienists regarding the mental responsibility of the youths.

More than three weeks are expected to be consumed in the hearing. State Attorney Crowe intends to present every bit of evidence collected by the state just as if a jury were hearing the case. His opening statement is expected to occupy all day tomorrow.

The parents of the two boys, estimated to have resources of more than \$10,000,000 do not wish them to have their freedom, attorneys for the defense say. Neither it is said, do they desire their incarceration to be in an asylum as might have resulted had the insanity theory been produced. Consequently, the corps of alienists who made a minute examination and prepared voluminous reports will make brief statements in an effort to gain leniency.

When questioned by reporters the boys wondered what amount of space would be given in the newspapers regarding their appearance in court: Loeb wondered if it would be "all over the front page," while Leopold counselled caution in talking about the case.

CHICAGO, July 22.—Jacob Franks, father of 13-year-old Robert Franks, the victim of Nathan Leopold Jr., and Richard Loeb, confessed slayers, will be the first witness for the state when the presentation of evidence begins tomorrow before Chief Justice J. R. Caverly in the judicial hearing destined to fix the punishment of the youthful intellectuals.

State Attorney R. E. Crowe will make a brief opening statement setting forth the views of the prosecution suggesting the punishment—demanded by the state.

FUNERAL MARKS PASSING OF PROMINENT CITIZEN

The funeral of F. D. Hill, well-known Ada contractor and builder, was held this afternoon at 2:30 p.m. at the First Methodist church. Rev. R. T. Blackburn, pastor, being in charge. He was assisted by a strong personal friend of the deceased, Rev. C. Morris.

Surrounded by a host of friends and with flowers banked high, the last tribute of those whom he befriended in life, the body of one of Ada's leading citizens was laid to rest in Rosedale cemetery.

From the church the body passed through the shadow cast by the Memorial Hall, the last as well as the greatest structure the deceased finally, was erected. This will be a monument to his worth greater than any other, except the monument he leaves in the memory of his friends and loved ones.

The Masonic Lodge had charge of the funeral, and the hands which laid the body to rest in the earth from which it had come were the hands which had clasped his in bonds of brotherly love and friendship.

WORLD FIERS REQUESTED TO CONTINUE TRIP

WASHINGTON, July 22.—Major Gen. Patrick, chief of the army air service, has called Lieut. Howell Smith, in command of the world flight, to start on the trans-Atlantic as soon as supplies are distributed along the route and the fleet of naval vessels has taken its position on the water stretches along way.

A statement issued today said: "The fliers are not expected to leave England before August 1."

NEAR RIOT AVOIDED IN SHOOTING SPREE

(By the Associated Press)

MIAMI, Okla., July 22.—Picher police averted a near riot last night when three men started shooting in a restaurant. Mike Slocum, 19, Lloyd McClurkin, 27, and Frank Rowden, 21, all of whom have served jail sentences, entered the restaurant together. Slocum pitched a penny on the counter, according to police reports, and asked McClurkin if he could hit it. McClurkin fired and the bullet passed through the shirt sleeves of a waiter. Police soon arrived on the scene and had difficulty in gaining entrance to the restaurant. The three started firing at the officers. Later they came out on the sidewalk and began throwing stones. Several windows across the street were shattered. McClurkin was shot in the arm by police but the three finally surrendered and were placed in the pitcher jail. Early today they were brought to the county jail here.

SLAYERS OF GIRL ESCAPE FRENZIED EFFORTS OF MOB

Negro Slayers Scurred to
Safety as Avengers
Assemble

GIRL IS SLAIN

Effort to Rob Store Led Shoot-
ing of Merchant's
Daughter

(By the Associated Press)

MOUNDS, Ill., July 22.—Two negroes suspected of slaying Miss Daisy Wilson, 18, in an attempted holdup of her father's store at Villa Ridge Saturday night were brought to the county jail at noon today for safe keeping.

A mob of several hundred men, apparently intent on lynching, was quieted when H. F. Morehead, a Ku Klux organizer, spoke and pleaded with them at the city hall in Mounds. Several of the crowd were deputized by L. J. Hudson to guard the prisoners.

A posse of several hundred armed men under Sheriff Hudson aided by bloodhounds brought from Water Valley, Kentucky, had been searching for the negroes for several hours. They were found, however, by Henry Bour, a railroad man near the tracks 12 miles north of Cairo and he summoned the sheriff.

The negroes called Wilson from his home to open his store on the plea that they wanted provisions. One of the negroes drew a revolver and the two sought to hold up the store. Wilson grappled with them and his daughter, hearing the struggle, came to his assistance. A shot was fired and the young woman fell mortally wounded. The bullet struck her in the head. The negroes escaped leaving Wilson severely beaten. Seymour Welch, 50, a neighbor, died from excruciation. The negroes are said to have arrived at Mounds yesterday.

The sheriff said a portion of his posse had been made up of Ku Klux Klan members. A large meeting had ended just as word came of the slaying.

The coroner's verdict of homicide holding the negroes responsible as slayer and accessory, was returned today.

Houston Klansmen Voluntarily Quit Active Sessions

(By the Associated Press)

HOUSTON, Tex., July 22.—Brenham Klan No. 2 of the Ku Klux Klan has been disbanded formally, it was learned today with the circulation of affidavits to that effect.

The disbandment was decided upon, it was stated, at a meeting Sunday night on motion of Sheriff Parks which was carried almost unanimously.

When asked today why he had made the motion Sheriff Parks said:

"It was not serving any useful purpose and was causing friction in the country: was why we took the first step towards returning to harmony in Washington county."

(By the Associated Press)

SACRAMENTO, Calif., July 22.—Senator Hiram W. Johnson, returned to California today, but declined to discuss national politics declaring it is too early to predict or speculate on the issues of the campaign. He said he would give his views on national politics after a rest at his home in San Francisco.

Office Boys And Track Laborers Still Become Railroad President

The extraordinary rise of O. P. Van Sweringen (2) and his brother, M. J. Van Sweringen (8) in the railway world adds two more to a long list of rail executives who have gone to the top from humble beginnings. Newsboys in their youth, and men of moderate means before the war, they now control the Nickel Plate, C. & O., Erie and Pere Marquette systems. Julius Krueck (1), head of the Southern Pacific, began his rail career as a construction engineer; Patrick Crowley (4), new president of the New York Central, as a messenger boy; Daniel Willard (5), head of the Baltimore and Ohio, as a track laborer, and E. E. Loomis of the Lehigh Valley, as secretary to a railroad attorney.

LEGION LEADERS WEATHER STORM

Gigantic Program Followed
Out by Present Legion
Administration

The present administration of affairs of the Norman Howard Post, American Legion, hosts for the Oklahoma Departmental convention here, has weathered one of the most difficult years in the history of the Ada veterans organization.

At the outset of the post's fiscal year, its members faced the momentous issues of playing hosts to the state convention, clearing its own indebtedness of several hundred dollars and furnishing their quarters in the Memorial Convention Hall as a fitting home to receive state veterans. Membership, Americanization, relief to distressed and disabled war veterans and several other vital matters were before the Ada legionnaires, who took upon their shoulders the responsibilities of the Post's advancement as a civic institution and a medium of helpfulness to war veterans of the county.

As the year neared its close, members of the post see the realization of their ambitions in the completion of a phenomenal year of activity.

The post has elaborately furnished the legion's quarters in the Convention Hall. The entire third floor of the structure, which was designated as the post's home has been furnished throughout. Several hundred dollars have been expended in the interest of a fitting permanent home for veterans. The very finest of furniture now adorns the hall with practically no indebtedness hanging over the organization as a result of their progressive move.

Entertain State Veterans.

The colossal task of entertaining the veterans of Oklahoma in the annual convention of the Oklahoma Department of the American Legion is well under hand of committees designated by the post officials and the post claims every reason to believe that it will be one of the greatest ever offered to war veterans in Oklahoma. All indications point to a record attendance from all corners of the state. Information has been received here by those in charge of the convention to the effect that every post in the state will be represented in the hordes of war buddies who assemble here July 27, 28 and 29.

But the outstanding accomplishment of the present administration from a standpoint of post activity has been the wiping out of indebtedness and the establishment of the incorporated post on a safe and sound financial basis. Through careful and business-like manipulation, post financial affairs have prospered during the past year and at the present time the post is practically clear of all outstanding indebtedness. Through the hands of the present administration has passed a continuous drain of funds that has answered the needs of a full program of legion activity. One of the most beneficial sources of revenue has been the Norman Howard swim

(Central Press Correspondent)

NEW YORK, July 22.—Newsboys, messengers, office boys and track laborers can still become railroad presidents.

The rapid and extraordinary rise of the Van Sweringen brothers, O. P. and M. J., to a position of commanding prominence in the railway world adds two more to a long list of names of railroad notables who have risen to the top from lowly positions.

The Van Sweringens, however, did not start to climb the railroad ladder from a low rung. They climbed via wealth earned in the real estate business in Cleveland, but their origin was humble. Both sold newspapers in their youth. Now they control the Nickel Plate, Chesapeake and Ohio, Erie and Pere Marquette systems.

The public marveled not long ago when it learned that Patrick Crowley,

the new president of the New York Central, one of the three biggest railroad corporations in the country, began his railroad career as a \$5 a week messenger. But his was not an unusual case.

Started as Office Boys.

A. H. Smith, after whose death Mr. Crowley succeeded to the presidency of the New York Central, also started as a messenger. J. H. Huston, president of the Boston and Maine had the same sort of beginning. J. E. Gorman, president of the Chicago, Rock Island and Pacific and W. T. Noonan, president of the Buffalo, Rochester and Pittsburgh, were office boys at first. H. E. Byram, president of the Chicago, Minneapolis and St. Paul, was a call boy.

C. H. Markham, president of the Illinois Central, Daniel Willard, president of the Baltimore and Ohio, and W. L. Hartranft started as track

RECORD NUMBER ATTENDS MASONIC GATHERING HERE

Ada Masons were hosts to East Central teacher and student Masons Monday night when both halls of the temple were thrown open to receive the largest attendance yet to assemble for a Masonic occasion.

Visitors were rewarded for their attendance by the conferring of the Master Mason degree by a special team, which bears the honor of having interpreted the work before the Consistory at McAlester this year.

Following the conferring of the degree, visitors and members of the local fraternity were served with ice cream and cake by the Rainbow girls.

A feature of the evening was a memorial service in honor of F. D. Hill, a member of the Ada lodge. A short and appealing address was delivered by L. A. Ellison eulogizing the deceased brother.

As a result of the invitation to

teacher and student Masons of the College, number of Masons who have been living in Ada for some time but who have not actively affiliated with the local lodge were examined and seated in the lodges rooms for the first time.

Members of the fraternity believe that the Masonic meeting last night will serve as an impetus for a greater interest in Masonic affairs locally.

Old legends tell of men who had the power to look down into the earth and see where gold and silver lay hidden.

FINDS RELATIVES HERE AFTER YEARS

Duncan Man Ends Search of
Twenty-Eight Years
in Ada.

LeRoy Neal of Duncan, since the age of five years, has been without a father. Today he is thirty-three, and much of the time between five and thirty-three have been spent in trying to locate some of his relatives. The call of the blood was strong in his veins but year after year the search has been in vain.

Monday afternoon he reached the end of the hunt, for in Ada he located the long lost relatives, and now has gone to get acquainted with others whom he has located.

Mr. Neal's father, the Rev. Benjamin Franklin Neal, left his home in Mississippi almost forty years ago and came across into Arkansas to preach the gospel. His first wife had died and before long he married again. LeRoy was born and five years later the father died. Being too young to know about his relatives, the lad grew up with out any knowledge of his father's kin.

Ever since he grew up, he has a strong desire with him to locate his people, and especially his half-brother and half-sister. When he would go to a new town, he would get a telephone directory and look for the name. When he found the name of Neal, he would telephone or go to see to get the person.

He reached Ada Monday and, as usual, looked into the directory. The name appeared several times, and he started out. It was not long until he had found Calhoun Neal, an ex-Confederate soldier living in Ada, who is his own uncle. From him he learned that the half-brother and half-sister have both passed on. He left this afternoon to visit another uncle, who lives in Seminole.

As a result they have been able to undersell operators in Pittsburg county producing coal for the Chicago, Rock Island and Pacific railroad which operates the majority of the mines in the latter county. The outcome has been that the railroad has closed down two of its mines, buying coal from Latimer county operators. Miners employed by the railway company feared other mines will be closed and this is assigned as the reason for attempting to intimidate the workers in open shop mines in the next county.

Three Thousand
Reported Dead
in Brazil Fight

(By the Associated Press)

CHICAGO, July 22.—Senators LaFollette and Wheeler will open the third ticket campaign in the eastern seaboard and New England states, touring west and south over different roads to every state in the union. Representative John M. Nelson, national manager of the LaFollette candidacy stated today.

Representative Nelson added that the proposed tour would begin "when the senators have had a brief rest in Washington."

In response to a request from a Cincinnati organization that one of the senators include that city in his itinerary, Representative Nelson said that "one of the leaders on the tour certainly will visit Cincinnati."

The superstition that it is unlucky to be married in May originated with the ancient Greeks.

Old legends tell of men who had the power to look down into the earth and see where gold and silver lay hidden.

HOUSING SITUATION FOR CONVENTION CLEARING UP

The housing facilities for Ada's visitor population during the legion convention, which begins here Sunday, is taking on a more promising look as a result of house to house canvasses conducted here yesterday and today.

According to the official report of the housing committee, headed by Charlie Deaver, approximately 1,500 legionnaires will be accommodated from pledges of home owners in Ada.

A section of the city remains to be canvassed by the committee tomorrow, at which time legionnaires hope to complete the drive for adequate rooming facilities.

The committee hopes to obtain rooms for at least 2,500 veterans expected here for the convention. A nominal fee of one dollar per day has been placed as rates for homes during the convention. Veterans will occupy rooms with that understanding.

BIBLE THOUGHT FOR TODAY

BUT NOW IS CHRIST RISEN FROM THE DEAD and become the first fruits of them that sleep.—1 Corinthians 15:20.

CHASING RAINBOWS.

A child is told that if he can reach the foot of the rainbow he will find there a pot of gold. He at once starts in pursuit of the elusive terminus of the manicolored arch, but never arrives.

He grows older. He is told that happiness or wealth will be found at the end of a certain strenuous course. Again he rushes forward heedless of the difficulties in the way but when he reaches the spot where he saw the rainbow beckoning him onward he finds himself deluded again.

He is told that power is to be found at the end of another path. Man inherently loves power, hence he seeks that only to find himself shivering in the icy blasts of disappointment.

A politician tells him the world will become a paradise if only men like himself will follow the directions of the man with a remedy. He gladly falls into line, regardless of the fact that the man's statements are far from being in accord with realities. In time he finds he has been duped and was only chasing another rainbow while his friend was profiting by his efforts.

Thus it goes. Not all chase the same rainbows but one and all are susceptible to being lured from the path of reason and common sense by stories and promises no less absurd than that of the pot of gold which the child believed because it was told him by one whom he considered better informed than himself. After all, we are only children grown up.

The State Tax Payers Association, of which Campbell Russell is secretary, is now engaged in sending out questionnaires to legislative candidates asking if they will support a bill authorizing tax payers to contest the validity of a tax within 30 days after it has been spread on record; if they will support a bill forbidding the issuance of judgment funding bonds and will favor provision making all bonds a serial instead of the cumbersome sinking fund system now in vogue. There is quite a bit to be said in favor of all three of these propositions. For one thing the funding bond habit has made it possible for millions of dollars of bonded indebtedness to be piled up by extravagant officials. The law says that the people must vote on the question of issuing bonds but this system has made it possible to get around that. In emergencies this might be permissible but for the people to be burdened with debt because of inefficient handling of the funds is rather hard. Then, too, we would like to see the law provide for serial bonds. In that way the debt will constantly grow less and the levy for interest smaller all the time. It will do away with the huge sinking funds now required.

Former Vice-President Marshall expresses his opinion of the class he terms "radicals for revenue only." The country is full of them at all times and, as Marshall points out, these fellows are as ready to advocate one cause as another. It is just a matter of which reform or propaganda pays the best. These guys really don't care whether what they advocate wins out or not. In fact, when the cause they preach succeeds they are out of a job. For instance not many years back the prohibition issue was a gold mine for spell binders on both sides. We remember the time in Texas when elections were being held in counties or precincts it was always in order for the opposing sides to import certain outstanding speakers. They made the fur fly, too, but now that the liquor question is settled these fellows are out agitating other things. Socialism furnished meal tickets for hundreds of smooth tongued artists, and the demise of that party made it necessary for the orators to espouse various other issues.

Speaking of taxes, when old Peter the Great ruled Russia some 300 years ago he formed a great dislike to the big bushes of whiskers his subjects were in the habit of wearing. Accordingly he levied a heavy tax on such displays of alfalfa. Naturally the fellow who did not have the price had to shave and a beard was a sign that its wearer was some punkins in the world and able to meet the tax on this luxury.

In several sections of the state cucumbers are being grown this year but with the exception of Pontotoc county the crop has to be shipped. Here the growers know before they plant the seed what price they will get, for the Ada pickle factory can handle several car loads in making the best pickles to be had on the market.

A pleasing personality is a good asset to have in business, but in the final analysis it is service that wins. People will go where they can get service regardless of their personal likes and dislikes. The next idea is how to get word of this service before the people. There is but one answer: Advertise.

Let a NEWS WANT AD get it for you.

IS HE OPENING PANDORA'S BOX?

MUCH GOLD STILL IN CALIFORNIA MOUNTAINS

(By the Associated Press)

SAN FRANCISCO, July 22.—Despite the fact that gold placers in California have produced more than \$1,000,000,000 since their discovery in 1848, they are not exhausted, according to a statement issued by the State Mining Bureau.

The bureau has completed an investigation of mining conditions, covering two years and finds that the principal placer area of the state lies in the Sierra Nevada mountains between Susanville on the north and Mariposa on the south. This area is tributary to the Sacramento and San Joaquin river, which are classed as navigable streams. There also is a big yardage of available gravel remaining on the tributaries of the Klamath river. The district within the Sierras, however, is deemed the most important from an economic viewpoint.

According to estimates based on the investigation, there is a total of something like seven billion yards of gravel distributed among the different drainage areas. Not all of this is practicable for working, but the bureau considers it safe to assume 60 percent is feasible for mining. It should yield an average of about 15 cents a yard, says the report, and under hydraulic mining approximately \$600,000,000 could be recovered from these drainage systems alone.

The report says: "A perfectly feasible plan for the working of this ground, under the provisions of the Caminetti Act, is now suggested and to some extent being carried out by private corporations. Should the work be amplified to cover the whole drainage system, it should properly be under the control of the national and state governments in conjunction."

DOLBERG

The farmers of this community would appreciate a rain.

Singing at Dolberg Sunday evening was well attended.

Buster Moore has been on the sick list this week but is better at this writing.

Manie Fairchild came home Sunday morning from Bristow to spend the week with homefolks.

Chlorene Bunyard spent Sunday night with Marie Moore.

Jim Jaynes and wife of Roff spent Sunday with her father and mother, Mr. and Mrs. B. H. Moore.

Lee Fairchild and family took dinner with Mr. and Mrs. Dugger.

Verda Sales took dinner with Opal Fairchild Sunday.

Charlie Steele is going to start a singing school at this place July 14.

There will be a pie supper at this place Monday night, July 21.

Summer school starts at this place Monday, July 21.

Bill Bunyard spent Saturday night with Robert Moore.

Cecil Stephens spent Sunday night with Robert Moore.

Henry Moore spent Saturday night with Furman Bunyard.

Chlorene Bunyard spent Sunday with Blanche Crossen.

Esther Williams and Malinda Sales spent Sunday with Malidene Bunyard.

Mr. Tidwell and family took dinner with Mr. and Mrs. Erwin.

Harve Moore left Monday to work in the harvest.

Marie Moore and Chlorene Bunyard motored to Roff Saturday.

Beauchamp Bunyard spent Sunday with Buster Moore.

Lillie Summers, Jewel Grinstead and Rosalee Bunyard took dinner with Alta Walters.

Lee Bunyard alled on B. H. Moore Sunday.

NATIONAL SPEAKERS AT TEACHERS MEET

Aggie Institution to Hear Experts Discuss Farm Problems

STILLWATER, July 22.—Agriculture and farm home experts of national prominence will be speakers at the annual Farmer's Week, August 19 to 23, when 3,000 Oklahoma farm residents, men, women and children, are expected at the Oklahoma A. and M. College.

Daily programs for the week have been outlined and several speakers engaged, says Dr. Bradford Knapp, president of the college, in an announcement today.

Practical teaching of how to better farm living conditions, and make farms more productive in income will be the purpose behind the week of meetings, President Knapp said.

August 19—Problems of crop production will be discussed. Soils, varieties of crops and methods of corps of speakers headed by S. E. Gromer, associate professor of agriculture will be taken up by a cultural economics at the University of Missouri.

August 20—Marketing of farm products will be the subject. Speakers will include John Manley, secretary-treasurer of the Oklahoma Wheat Growers association; C. P. Denman, Kansas City, president of the Livestock Producers association and Carl Williams, editor of the Oklahoma Farmer-Stockman.

August 21—This day has been designed for the study of farm home and community problems. Speakers will be Susie V. Powell, former state home demonstration agent of Mississippi, now the Mississippi Agricultural college, and Hannah Wessling of Chicago.

August 22—Livestock will be discussed. Purebred animals owned by the college will be on exhibition; animal husbandry faculty members and visiting livestock specialists will speak at meetings.

August 23—The college and Stillwater civic clubs will be hosts at an all-day picnic and barbecue.

Special programs for women, and girls and members of the boys' and girls' agricultural and home economics clubs will be held through the week.

Special instruction in grading and marketing of cotton, wheat, small grains and other crops, will be given, and in grading, standardization and marketing of cattle, sheep and hogs. Dairy specialists will instruct in dairying and in judging dairy cattle.

North Carolina agricultural experts have suggested that the extensive meat beds of that state be used to supply cheap fertilizer, containing much valuable nitrogen.

Up Your Strength With Winter Smith's

Much interest is being manifested in the revival meeting scheduled to begin at the Nazarene church Friday evening and continue for fifteen days. Rev. Lum Jones of Ada will do the preaching and Prof. Paylor and family will be in charge of the music. Services will be held twice daily, in the morning and in the evening.

Maj. Raymond Barton Given Important Post Under New Assignment

Major Raymond Barton, son of Judge and Mrs. C. O. Barton of Ada, has just been given an important assignment in the Seventh army corps with headquarters at Omaha, Nebraska. In army parlance it is "G-3," which means that he is in charge of all matters pertaining to operations, plans and training for all military establishments in the area which comprises the states of North and South Dakota, Minnesota, Nebraska, Iowa, Arkansas, Missouri and Kansas.

The officer is rather young in this position which is next in importance to the chief of staff and which is usually given to a colonel. It indicates that the former Ada boy has made an unusually good record in the army.

Major Barton was appointed to West Point immediately following statehood. Prior to that time he was a student in the Ada high school and graduated with the first class turned out.

E. E. UELTSCHY FOR CONSTABLE ADA CITY

Attention is called to the announcement of E. E. Ueltschy as candidate for constable of the city of Ada. Further mention will be made of his candidacy later.

Missionary Society. The Womans Missionary Society of the First Methodist church, held its regular literary and social meeting Monday afternoon at 5 o'clock in the City Park.

Subject: "The Illumined Task in the Rural Community."

Leader, Mrs. Wilbur P. Lee.

Roll call responded by verse from Bible referring to country life, which was in fitting with the subject of the lesson, also the location selected.

Prayer by Mrs. R. O. Wheeler.

Mrs. W. B. Duncan also discussed mission current events from the bulletin.

Mrs. Frank Meaders gave a reading, entitled "The Gospel Ford," a beautiful story of the gospel good even a Ford could do.

Mrs. H. P. Butcher, discussed rural conveniences, and how beneficial it was to the rural districts to place them in touch with the outside world.

After this interesting meeting came to a close refreshments consisting of sandwiches, potato chips, fruit and lemonade was served to the following guests:

Mesdames W. J. Allen, P. S. Case, W. B. Jones, T. H. Wyatt, H. P. Butcher, R. O. Wheeler, W. B. Duncan, F. W. Meaders, Wilbur P. Lee, W. D. Kennedy, W. E. Moore, Emily Warren, J. M. Carter, C. F. Green, L. J. Agnew, Misses Sallie Fulton, Emma Barton and Dr. Ella D. Coltrane.

Hostesses, Mesdames W. E. Moore and W. J. Allen.

MISS McMANN RETURNS

Miss Ruth McMann who has been visiting in Ada since Sunday, left this morning for her home in Oklahoma City. Miss McMann is a soprano singer of unusual ability and gratified the music lovers of Ada on two different occasions. Her remarkably clear high tones, her artistic interpretations, and her graceful personality made her singing enjoyable to all.

Lodge and Club Notices

Lodge Notice

The regular meeting of the Norman Howard post, American Legion has been deferred until Wednesday night, at which time final plans for the convention will be disposed of.

NOTICE W. K. K. Special meeting. Every member requested to be present.—Excellent Commander.

Notice Colored Ex-Service Men. The colored former service men of Ada are hereby called to meet at the colored school house Saturday afternoon at 4 o'clock to arrange for the coming state meeting. C. W. WILSON.

Arnold Calls Halt in Suit for Damages

Roscoe Arnold, who sought \$50,000 in damages from J. W. Smith, Laura Elam and the Oklahoma Portland Cement plant, has filed in district court action for dismissal of the suit against defendants in the suit.

In filing for dismissal, Arnold issued a statement to the press to the effect that since filing the suit for damages, his wife, Damilee Arnold, has made a statement conflicting with previous statements made by her, thereby vindicating the above defendants of all blame in connection with this matter.

"I regret the whole affair and respectfully ask the public to forget the incident as quickly as possible. My wife still has my prayers and sympathy and if there is ever any thing that I can do for her within my limited means I will gladly do it. Mr. Smith and I, in the presence of defendants' attorneys, shook hands, agreeing that I had been misled, and we have amicably closed this case, forever."

ROSCOE ARNOLD. The Boys Bible school attendance again hit the high peak Tuesday morning when 134 lads rallied to the Prince-Chevrolet motor company garage has been secured to give Buddy more room to expand in execution of his dance maneuvers.

The decision to use the Chevrolet garage was made when it was decided that the Convention Hall floor would be inadequate to accommodate the hundreds of revelers, who participate in the Legion hop.

The new dance quarters covers almost a half block and will be able to accommodate hundreds of dan-

cers. The dance quarters will be deprived of its atmosphere of motor cars when the decorating committee gets busy and converts it into a palace of jazz.

Outside of the American Federation of Labor there are organizations of workers with an estimated total membership of 600,000 of which 400,000 are accredited to the "Big Four" railroad brotherhoods.

Carry babies and flag denoting the teaching of the Bible under a patriotic movement.

"On to Ada"

Clippings From Papers Over the State About The Legion Convention at Ada

ARDMORE—Plans are being made by the George A. Anderson Post, American Legion, to send a large delegation to the state convention to be held at Ada, July 28 and 29.

Dr. C. A. Johnson, candidate for state commander, will be supported by the members of the Carter County Legion, William Rumse, post adjutant, said yesterday.

End and Pawhuska are in the race for the next convention. In the event that Carter county does not receive the office of the state commander, the local delegates will ask that Ardmore be selected as the next convention city, it was stated today.

Members of the legion who intend to attend the convention are asked to register at once at the Red Cross rooms in convention hall, in order that reservations may be made.

VINITA—Dale Peace Post No. 40 of the American Legion will meet in regular session at the courthouse Monday evening, July 21. A full attendance is desired and among other things of importance to come before the session will be the selection of delegates to the state convention which meets at Ada on July 28 and 29. It is very important that Vinita have at least one official representative at the state meeting so be on hand Monday night and help in selecting the proper representative for this live post. The Vinita post has a record for this year to be proud of, besides having the biggest membership in its history it has been one of the most active posts in the state in civic welfare movements and has been mentioned very favorably by the state commander. Be on hand promptly at 8 o'clock Monday evening and select a live wire to go to the state convention.

MCALESTER—The local legion post is boasting Dr. L. S. Wilbour for state commander, the election of officers being part of the program of the coming state meet of ex-service men at Ada, July 28 and 29. The local post will also send a delegation of fourteen members to attend the reunion. The post is also working to see that all ex-service men secure bonus blanks and have made arrangements for inquirers to call at the county agent's office for aid in this matter.

NORMAN—Several important decisions will be made by the Norman post of the American Legion at a special meeting to be held at 8 p. m., Thursday at the Legion clubroom.

Shall the post endorse a candidate for department commander at the Legion state convention July 28 and 29 at Ada?

Shall the delegation be instructed by the post on various matters of policy which will be taken up at the convention?

SHAWNEE—Plans for the delegates to the state convention at Ada July 28 and 29 were discussed at the regular meeting of the American Legion post last night. Post Commander Arnold read a communication from Bob Kerr, commander of the Ada post, saying that arrangements will be made for the twenty-six delegates from Shawnee.

A special train will leave Oklahoma City via Katy Sunday afternoon stopping at Shawnee. Arnold said that at least fifty legion and auxiliary members will attend the trial court action for dismissal of the suit.

Ray Evans, member of the executive committee from the fourth district, stated that he would call a caucus of the Shawnee delegates on the morning of the convention to decide upon their procedure. The delegates will go uninstructed.

CHICKASHA—With the "base" established at Sulphur, Chickasha is to "go over the top" with Ada as the "objective" on the morning of Monday, July 28, and there will be no let up in the drive until Jim Hatcher is elected state commander of the American Legion.

This is the outline of plans laid by the legions committee, Dr. A. W. Nunnery, E. E. Huff and Harry Kaplan, who expect to take a whale of a delegation of Chickasha people to Ada to put Jim Hatcher over for state commander at the meeting of Oklahoma Legionnaires on July 28 and 29.

The trip to the state meeting is to be a combination pleasure jaunt and Chickasha booster trip and the invitation of the legion is extended to all Chickasha people. The big show and free eats will be staged at Sulphur on Sunday, July 27.

"We will have a camp established at Sulphur on Saturday, July 26," said Dr. Nunnery. "A truck will take the necessary commissary supplies there, leaving here Saturday morning. A paid cook will be on the job and have everything in readiness to serve the Chickasha boosters when they arrive in Sulphur on Sunday forenoon.

"The camp will be maintained through Tuesday and will be headquarters for Chickasha people. We have the promise of a number of automobiles and can assure free transportation for anyone who intends to go and who has no car.

To Boost for Hatcher

"We will have plenty of tents, cots and bedding. After spending Sunday and Sunday night in Sulphur, we will move forward at daybreak Monday morning, with Ada and the legion convention as our objective.

"Our idea in taking a big crowd of Chickasha people, both members and non-members of the legion, is to show Ada and the state legion

OBITUARY

T. H. HOOSER

T. H. Hooser, aged 91, died Monday evening at 8:30 at the home of his son J. A. Hooser, 7 miles west of Ada. The funeral and interment took place this afternoon at 2:30 at Rosedale cemetery.

Deceased was one of the pioneers of this part of Oklahoma and was also a Confederate veteran.

GIRL WANTS JAIL CELL; FLED FROM TULSA HOME

(By the Associated Press)

LOS ANGELES, July 22.—Brysa Sykes, 19 year old girl, who says she is the daughter of a millionaire oil operator of Tulsa, Oklahoma, applied at the city jail for a place to sleep telling officers that after a quarrel her father sent her away from home several weeks ago and that she was without funds. According to her story she walked to California but was practically penniless when she arrived.

TULSA, July 22.—Efforts to locate an oil operator named Sykes have proved futile. The city directory gives no oil man by that name and men closely in touch with oil circles say that they know no such person.

The chief causes of crime are said to be influence of evil associates, inherited disposition, drink, strong temptation plus favorable opportunity and poverty.

W. J. Bryan and others have made another location on the 1000 acre block northwest of the city. This makes three locations on the block. Mr. Bryan says he thoroughly believes that they will open a new field for Ada and rapid development will follow.

The geological work was done by Dr. Victor Ziegler, who has located many valuable structures in the Southwest. He has the reputation of being one of the foremost geologists in the country. Operations will be in charge of George E. Jones, who for many years was with the Magnolia. He will be general superintendent of all the work.

The contract on the Palmer well calls for 1800 feet, but the hole is to be kept so it can be carried 3,500 feet if necessary. Mr. Bryan believes that 1800 feet will get oil, but it will not be necessary to stop there if a deeper well is necessary to find pay sand.

The cellar has been dug and the derrick is being erected at this time. Tools are going on the property, and the well will be spudded early in August.

Buy it—rent it—sell it—and I with a NEWS want ad.

Late News From All Parts of the World Reported by the Camera

TIRE-WATER—That miscarried! The "Admiral Schley" being lightened of some 700 cases of liquor in New York harbor after being captured off Long Island by U. S. revenue agents.

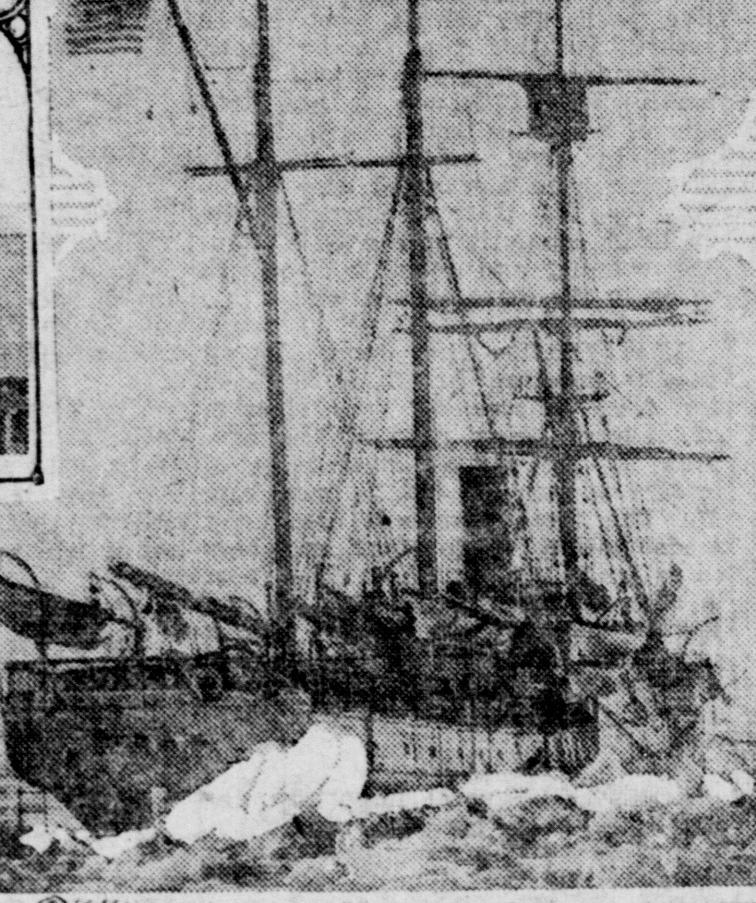

"OUNCE OF PREVENTION"—Is worth a pound of cure." Doctor following the old adage and vaccinating a baby living in the Cleveland, O., foreign quarter, quarantined in fight against smallpox epidemic. Ten thousand persons were inoculated in one day, after establishment of the quarantine.

TROUBLE-MAKER—Capt. Jacques Sadoul (in center, with his hand on man's shoulder), shown here talking to "red" sympathizers in Moscow, may cause a break between Premier Herriot of France and the French senate. Herriot has ordered amnesty for Sadoul, condemned to death in Paris, and the senate does not approve.

YELLOW-TONGUED DEATH HITS AGAIN—Augusta, Kan., finds it easier to sympathize with Lorain, O., now. Like the Ohio city, it is rising from ruins wrought by a tornado. This is a typical scene in Augusta.

THE LAST JOURNEY—The famous old U. S. coast guard cutter Bear will sail no more to the Arctic to spy on icebergs; for she is now pinched in the ice somewhere a thousand miles north of Unalaska and coast guard headquarters have radioed to give her up. The old boat has made 49 trips into waters that none others could penetrate.

TENSHUN!!—Ras Tafari, regent of Abyssinia, accompanied by the Duke of York, inspects the famous guard of honor outside of Albert Gates, London, on his formal visit to the British capital. All of the men of this regiment are more than six feet in height.

No. 1

E. B. HOWARD HERE TO SPEAK TONIGHT

pool, which was taken over at the opening of the summer season. The pool has contributed on an average of \$3 per day and has assisted to a great extent in removing the indebtedness of the organization.

In claiming the honor of relieving the post's indebtedness, the present administration is not striving to lessen the honor due to post administrations, which have organized and founded the post as well as progress it in public favor.

The post has also been responsible for a system of helpfulness to needy war veterans. Funds and efforts of individual members have been contributed to the relief of worthy war veterans who have suffered the earmarks of war. Any number of veterans have secured claims from the government through the assistance and attention of officials and members of the local post. Hospitalization and compensation matters come within the daily routine of local legionnaires.

The local post officers and members have been responsible for a closer feeling of unity in the cause from the public through Americanization programs over the country. Speeches and talks have been instrumental in a greater appreciation for the flag and the principles of the Legion through the efforts of local members.

The post has been fortunate in having the loyalty of officials and members in the advancement of post affairs during the past year.

It is thought improbable by these unofficial historians that the white Indians is of Spanish origin, for the men of Spain were never referred to by the Indians as white men but as "jinetas," after the Spanish "horsemen." This failure of the Indians to refer to the Spaniards as white men while that term was applied to other strangers of the jungles, is considered solid ground for the theory of those that believe the new-found tribe descended from the Scotch.

The government of Brazil has consented to the laying of telegraph cables from Rio de Janeiro to Rome and to Montevideo in connection with an Italian concession.

In connection with other railway electrification the Japanese government has decided to electrify the entire Tokyo-Kobe truck line, obtaining power from private companies.

Even Eskimo boys in Alaska are learning radio through the U. S. Bureau of Education.

To remove dust from the crevices of carved furniture use a bicycle pump.

These Old Boys Are Still Going Strong

Time has failed to halt these four pitching veterans of the big show. Walter Johnson, left, and Ehmke, right, are starring in the American league, and Burleigh Grimes, upper center, and Dazzy Vance, below, in the National.

By NORMAN E. BROWN

Listed among the pitching leaders of both big leagues these days are several veterans who have defied old man time for varying lengths.

Of course Walter Johnson is the dean of them in the American league.

Stepping right along with him,

however, is Howard Ehmke.

In the National league Burleigh Grimes is

rambling along at a gait better than

many of the youths ten years younger

than he is.

Sammie Dwight has gone to Ada

to spend a few days and then will go to Wewoka.

Mr. Flowers spent the week end

with home folks this week.

Eldo and Edwin Whipple, Harvey

Miss Valres Jackson, Irene Sellers, Vestrell Burnet, spent Sunday evening with their grandparents, Mr. and Mrs. Simpkins.

Miss Autrey Yancy entertained a

few young people with singing Saturday night and served ice cream.

All reported a nice time.

The baby of Mr. and Mrs. Oscar Whitson who is sick is reported better.

Miss Georgia Coker of Stratford

spent a few minutes with Autrey Yancy and Gladys Huddleston Sunday evening.

Let a News Want Ad get it.

calm, nerveless competent manner of a surgeon or physician or astronomer. There are no wasted motions, no useless effort expended by Walter.

Ehmke is erratic, a man of varying moods. He labors twice as hard as the great Johnson mainly because he wastes many balls every game due to his inability to locate the plate.

Johnson studies the game as a master delves deeper into philosophy and science. Ehmke is a student of the game but to this day needs the guiding hand of an instructor. This is shown by his success under Lee Fohl after treading dangerously near the edge with Cobb.

Burleigh Grimes is temperamental. He is a perennial holdout. At his best he is without a superior.

He is one of the best spitball artists

the game has ever had and one of

the best pitchers in the game.

Dazzy Vance's name in the list

of four "veterans" may cause some

surprise. He has been with the

Dodgers and in the big show but

three years. In age and baseball

service, however, he ranks with the

real vets—Joe Bush, Dutch Ruether

Grimes and half a dozen others.

The fact that it took him an

average baseball lifetime to make

the big show indicates his type. He

is a plodder. He says himself that

he succeeds only by plodding, by

pitching his best to every man that

races him.

Old Legend Traces White Indians to Roving Scots

NEW ORLEANS, July 22.—The recent discovery of so-called "white Indians" on the Isthmus of Panama by the Marsh expedition has unleashed its legend in New Orleans, versed in the romantic lore of Central and South America.

An expedition of Scotsmen, some say, settled in Darien in the autumn of 1698, by authorization of the Scotch parliament. This expedition numbering some 1200 persons, included four ministers of the Church of Scotland who went along to establish a presbyterian organization.

and it is told that because of their ascetic tendencies, some of the sturdy Scotch families rebelled against them, and were banished from the settlement.

Later, it is said, others of the settlers were driven away by the Spaniards, and it is thought likely many of them fled into the jungles and remained. This, if the supposition is correct, might account for the white Indians.

But the San Blas tribe of Indians have a different story. Many years ago, they say, so long ago that no one can recall the date, a band of white men came to Darien and set about to rob the red men of their wealth. In their exploitations, however, the pale face visitors incurred the displeasure of an evil spirit, and soon they died. Their spirits, so the story goes, being accused, were driven into the fever-laden jungles, where they stayed forevermore. That is the legend of the San Blas tribe.

According to their oldest chieftains, no San Blas could intermarry with another race. That law still holds, and so strictly is it observed that even now a white man visiting their village is carefully watched. But there are tales of Pocahontas even among the San Blas, and they say that some of the women of the tribe ran

away with pale face men, whom they married, only to be slain later or their babies killed a few days after birth.

Small sets with headphones are to be installed on every squad car and motorcycle. Radio sets will have only one wave length, but will enable motorcycle officers outlying districts to listen in on bulletins from the central station.

CLEVELAND, July 22.—Radio-casting for the prevention of crime and detection of criminals is soon to be employed extensively here, Chief of Police Graul has announced.

away with pale face men, whom they married, only to be slain later or their babies killed a few days after birth.

**HEALTH OFFICIAL
EXPOSES DANGERS**

Declares Boiling of Water Will Relieve Situation In State

OKLAHOMA CITY, July 22.—Warning Oklahomans against the dangers of typhoid infection during the summer months, Dr. Carl Puckett, state health commissioner, in a bulletin pointed out that chemicalization of boiling of water would do much to reduce the number of typhoid cases. There were 347 deaths in Oklahoma from typhoid last year, Dr. Puckett said.

The health department bulletin follows:

"Vacation time is typhoid season. Anti-typhoid vaccination is good for those who stay at home, but it is essential for all who go on vacation."

"One of the commonest causes of typhoid is the water supply. No one can tell from the appearance of water whether it is pure and fit to drink. The only safety lies in boiling of chemical disinfection before use."

"If water is boiled for ten minutes all harmful bacteria will be destroyed. For chemical purification iodine is the most practicable method, though a solution of hydrochlorite may be used."

"To purify with iodine, add three drops of tincture of iodine to each quart of clear water and eight drops to each quart of water that is cloudy. Allow to stand for 15 minutes. Then add a very small pinch of sodium thiosulfate which will destroy the excess iodine and restore the taste. This sodium salt is the same as used in photographic work and can be obtained at any drug store."

"Typhoid now is almost unknown in the army, and would be in civil life if similar precautions were carried out. Every case of typhoid is caused by carelessness or failure to some individual or municipality."

Insist on Thedford's, the only genuine Black-Draught powdered liver medicine. At all dealers". NC-164

BOLL WEEVIL NOT ACTIVE THIS YEAR

Southeast Portion of State To Have Greatest Trouble With Pest

STILLWATER, July 2.—Boll Weevil infestation in Oklahoma cotton fields, just as earliest plants are beginning to blossom, is less than it has been any season since 1918, says C. E. Sanborn, Oklahoma A. and M. college entomologist, in announcing today completion of a statewide survey.

Cotton is entering July with its growth most advanced in the southeastern part of the state, Sanborn says. In some fields where blossoms are appearing, weevils already have punctured an average of six out of every one hundred squares. But, he points out, weevils have not established contact with plants on which squares have not yet formed, while in the past two years, particularly 1922, numerous weevils were found on young plants soon after germination of seed.

Heaviest weevil infestation probably will be in the following counties this year, according to Sanborn: Marshall, Johnston, Coal, Atoka, Bryan, Choctaw, Pushmataha and McCurtain.

He predicts that the northern boundary line of infestation will extend through the following counties: Jefferson, Stephens, Garvin, McClain, Pottawatomie, Okfuskee, McIntosh, Haskell and LeFlore.

"My findings indicate that the first brood of weevil is just beginning to issue in the southeastern part of the state. The present hot weather and good soil mulch prepared by farmers will prevent the first brood from very great development, which is an extremely favorable condition for the cotton planter," Sanborn says.

But many weevil which have hibernated over the winter have not yet issued from their cold-weather quarters, although all are expected out before the end of July.

"Some cotton planters are exceedingly eager to poison the cotton in order to exterminate the weevil, believing that the poison would be fatal to the weevil present. This of course is impossible, since a new generation will be issuing before all the hibernating weevil will have quit their winter quarters," Sanborn says.

An encouraging element in the situation even in fields where comparatively heavy infestation of weevil is found in that parasites are already at work to destroy larvae of weevil deposited in newly-infested squares, says Sanborn. Parasites do not usually develop in force until later in the season, he explains. There are large numbers of parasites at work this early in Bryan county, according to his survey.

FRANCIS

The light rain Monday morning and the cool bracing wind from the north Sunday evening put a new spirit into everything both animal and vegetable.

E. M. Johnson went last week to the hospital at Sherman, Texas, to be operated upon for tonsilitis. He returned without the operation but must go again in about ten days for the treatment.

Everything in the Frisco yards is moving along smoothly and the traffic on the road is still holding up as usual.

The oil people out on section 19 are still at work drilling and they are down about 2200 feet with signs of oil. It is thought by the oil people that they will get down to the oil in the near future.

It is reported that F. F. Gibson, an oil contractor, has contracted to drill a well in the Happy Land neighborhood and that he will begin drilling out there in the next twenty days.

Will Yates, a farmer, filed suit last week against the Francis National Bank asking for a damage of \$1000. This suit grew out of a suit in forcible entry and detainer tried here in the Justice Court.

The prospects for a large yield of corn was never better in this part of the county and there are no complaints about boll weevil yet.

Some building and repairing are going on in town and the prospects are that improvements will largely increase next fall and that the town will grow quite fast.

We never had a better season around Francis and a little more rain will put the farmers on easy street.

Night Watchmen Object When Robbers Disturb Their Sleep

(By the Associated Press)

DANZIG.—Night watchmen have complained that because of the progressive methods of thieves they cannot sleep properly at night.

Recently robbers endeavoring to gain entrance to a food store managed to get into the basement and began boring through the wooden floor for the purpose of cutting a panel that would admit their bodies. It happened that the night watchman was asleep on the floor at that particular spot and when his body was pricked by the sharp instrument he set up a cry that aroused all the night watchmen and police-men in the neighborhood.

The building was quickly surrounded and the robbers were captured.

Americanizing England.

LONDON.—Great Britain eats as much ice cream every year as all the people of New York state plus two-thirds of those in Pennsylvania according to those who manufacture it over here. Last year His Majesty's subjects consumed 20,000,000 gallons of this frozen product.

FORT SILL READY FOR GUARD UNITS

Camp Looking Forward to its Greatest Concentration This Year

(By the Associated Press)

FORT SILL, July 2.—Not since the frenzied days of '17 and '18, when 90,000 men prepared for service in France, has this historic army post looked forward with more interest to an encampment than the annual concentration of Oklahoma national guardsmen here August 4 to 18.

Army officers at this post say it will be the greatest mobilization of national guardsmen in the Southwest, and it is doubtful if there has been held in the United States such a comprehensive encampment of state troops.

Preparations are being made to take care of more than 5,000 guardsmen, representing all units of the 45th division, except the tank and air corps, officers say.

The camp here will be in command of Baird H. Markham, adjutant general, who will be assisted by the full divisional staff. Col. P. A. Hennigan, Fort Huachuca, Ariz., senior instructor of the Eighth corps area, will head a detachment of 40 regular army commissioned officers and 55 regular army sergeants, who will be in charge of the instruction of the militiamen.

The following units of the 45th division will attend the camp, Fort Sill officers announced:

Brigade staff officers and headquarters trooper, 90th brigade of infantry; brigade staff and headquarters trooper, 70th field artillery.

120th medical regiment; the 179th and 180th infantry regiments; the 158th and 160th light field artillery; the 189th heavy field artillery and the first battalion of 120th engineers.

PEOPLE OF HABAROVSK DECRY BEING MADE CAPITAL CITY

(By the Associated Press)

HARBIN—Citizens of Habarovsk, in eastern Siberia on the Amur, are unhappy over the removal of the Soviet seat of government from Chita in Transbaikalia to their city. The change decided upon some months ago is being carried into effect.

The first step toward removal was the publication of an order forbidding private citizens entering the city, exceptions being made only in special cases where citizens are able to show documents proving necessity. Violations are punishable by a fine of 30 rubles or three months at hard labor.

The explanation given by the authorities is that it is necessary to provide living quarters for officials of the various government departments. There is much bitterness among residents over the corresponding reduction in space allotted to them. The committee in charge of allotments has a right to deport such citizens as prove refractory.

BANK OF POLAND WITHDRAWING MARK FROM CIRCULATION

WARSAW—The Bank of Poland has published its balance sheet for May. The bank's assets are \$14,000,000 gold, \$36,000,000 in foreign currencies, and \$23,500,000 in commercial securities. Liabilities show \$22,000,000 of bills in circulation.

For the time being marks are also in circulation with the zloty bills. The total amount in circulation, zlotys and marks, is \$72,500,000. As from June 1 the government began to withdraw mark bills with a view to having only zloty bills in circulation by July 1, 1924.

Advanced Radicals in Japan Form Non-Voting League

TOKIO.—A new radical party pledged to abstain from participation in elections or the present processes of government, and calling itself the Non-Voting League, has been formed in Tokio by a group of well-known advanced thinkers.

This group came into being shortly before the recent elections, and its members refused to take any part in the voting. The ultimate purpose of the league is to replace the present "capitalistic" system of government by proletarian rule, and its weapon is simple non-co-operation.

The group includes the brilliant Dr. Sazuko Yoshino, most famous of Japanese radical writers and thinkers; Prof. Isamu Abe, of Wase-

da University; Tatsuiji Ueda, correspondent in Moscow for the Asahi Mainichi and the Tokio Nichi Nichi, and Kesaya Yamasaki, a prominent attorney.

Farmers' ColumnBy—
Byron Norrell**Feed for 100 Hens.**

Frequently a poultry raiser goes into the business with no conception of the amount of feed it will take to feed his hens. He feels what he has on hand and, when that gives out, he buys more. Experiments conducted by poultrymen at the University of Arkansas College of Agriculture show that one may know to a reasonable degree the amount of feed needed.

In these experiments it was found that, where all feed is bought or raised, hens the size of Leghorns will consume 74.6 pounds of feed each during the year, or a total of 7,460 pounds for a flock of 100 birds; while heavier breeds will consume an average of 91.9 pounds of feed per hen per year, a total of 9,190 pounds for a flock of 100 birds.

In making these tests, the amount of feed required to produce a dozen eggs was determined also. The records show that for Leghorns, producing an average of 198.6 eggs per year, it took 4.43 pounds of feed to produce one dozen eggs; and for S. C. Rhode Island Reds, producing an average of 176 eggs per year, it took 6.56 pounds of feed to produce a dozen eggs. The heavier the breed the more feed was consumed. The higher the average production per hen, the lower the amount of feed required to produce one dozen eggs.

Of course, if the poultry were given free range, as on most farms, the amount of feed required for the year would be considerably reduced. It is estimated that from 20 to 25 per cent of the feed, under such conditions, would be节约ed, lessening by this much the amount needed to be bought or raised.

Ready for Farm Week.

STILLWATER, Okla.—Programs for Farmers' week, August 19 to 23 inclusive, have been completed, says Dr. Bradford Knapp, president of Oklahoma A. and M. college.

Educators of national prominence and specialists in different phases of farming and farm conditions will address meetings.

Practical teaching with facilities of the college for object lesson instruction, insure the greatest good that can come from such a meeting, says President Knapp.

The program by days follows:

August 19.—Problems of production will be discussed; soils, crops and methods of cultivation will be presented by especially fitted instructors, chief of whom will be S. B. Gromer, associate professor of agricultural economics at the University of Missouri.

August 20.—Marketing in all of its phases will be the subject. Speakers will include: John Manley, secretary-treasurer of the Oklahoma Wheat Growers' association; C. B. Denman, president of the Livestock Producers' association of Kansas City, and Carl Williams, editor of the Oklahoma Farmer-Stockman, each of whom have been instrumental in formation of co-operative associations.

In struction will also be given in grading and marketing cotton, wheat, small grain and other crops and gradings, standardizing and marketing of cattle, sheep and hogs.

Prize stock owned by the college will be used to give point to lectures. Farmers will be shown the difference between "number one" steers and "canners" or "cutters." Throughout the day the college dairy herd will be on exhibition. Dairy specialists will give instruction in dairying and in judging dairy cattle.

August 21.—The third day has been designated Home and Community day. Problems of home life on the farm and rural churches and schools will be discussed by Susie V. Powell, formerly state home demonstration agent of the Mississippi Agricultural college, and Hannah Wessling, of Chicago.

August 22.—Livestock will be studied. Purebred animals owned by the college, which have won honors at livestock shows will be on exhibition. Faculty members, of the animal husbandry department of the college, and visiting livestock specialists will have charge of the instruction.

August 23.—The college and Stillwater civic clubs will be hosts at an all-day picnic and barbecue.

Special programs for women and girls and for members of the boys and girls' agricultural and home economics clubs will be held in the week.

Pig Production Declines.

The June, 1924, pig survey of the United States Department of Agriculture shows that the flood of hog production in the corn belt that reached its high point in the spring pig crop of 1923 is now rapidly receding and has about reached a normal level. A decrease of about 8,000,000 pigs in the spring pig crop of the corn belt is indicated.

The department's survey was made in co-operation with the United States Post Office Department, being based upon reports collected by rural mail carriers from 123,000 individual farms in all parts of the United States, of which 70,000 are in the corn belt.

A decrease of about 21 per cent in the number of sows farrowed for the country as a whole in the spring of 1924 from the spring of 1923 is shown by the survey. Because of a slight increase in the average number of pigs saved per litter this spring the reduction in number of pigs is 20 per cent.

The number of sows bred to be bred for fall farrow this year shows a decrease of 6 per cent from the number of sows bred for fall shows. This indicates a probable reduction of 10 to 15 per cent in fall pigs, provided intentions as of June 1 are not modified by subsequent conditions, since a considerable per cent of sows bred do not produce pigs.

The decrease in the number of sows farrowed this spring in the corn belt states is 20 per cent and of pigs saved 17 per cent, while the number of sows bred for fall shows

**He's in a Class by Himself
In the National League Race**

Jacques Fournier, once relegated to the minors for poor fielding, is making a runaway race of the home-run contest in the National League, while playing a brilliant game at first for Brooklyn.

a decrease of 11 per cent. All other regions show sharp decreases in the 1924 spring crop, although individual states in the far west show increases. In the South Central region, extending from Kentucky to Texas, the decrease is 36 per cent. All regions except the corn belt show more sows bred to farrow this fall than farrowed last fall.—Farm and Ranch.

FITZHUGH.

Thrashing will soon be over in this part of the neighborhood.

Mr. and Mrs. Bill Williams returned home from Paris, Texas, where they had been visiting relatives and friends.

Mrs. W. A. Oliphant has returned from Okmulgee where she has been visiting her children.

Texas Battler**

Booger Red Lewis, the phenom who has been putting to sleep a battery of heavyweights at Wichita Falls, may be tough but then Archie Cooper, Oklahoma's high ranking middleweight will teach him a few particulars of the fight game besides being able to masticate nails and sustain sledge-hammer drives.

Cooper, according to the boomer of his manager Lou Cutler, will demonstrate a few of the finer points of self defense in the squared arena as well as hitting insomnia blows from any angle on the mat.

Cooper has been standing some rough punishment from his handlers during his workouts here and does not fear destruction in the contemplated barrage of the rough Texas bulldogger.

Cooper's strength, however, will rest in his elusiveness and his ability to keep from grilling closeup massacres, his opponent being man of several pounds to advantage.

Cooper is appearing daily in workouts and works with every man who will step in the ring with him. The public and especially the ladies have been issued a cordial invitation to visit the arena and view Cooper's methods of preparedness.

WICHITA FALLS—Booger Red Lewis, eccentric Galveston middleweight who has been making his home in Wichita Falls the past several months, is going out after Archie Cooper at the Legion convention July 28, in Ada, Okla. Now some say, in fact many are of opinion, that Archie is Oklahoma's leading middleweight. He may be, but that doesn't mean anything to Red. Why should it?

Lewis the comedian, Lewis the clown, and yet Lewis the fighter, as usual expects to clean Cooper from gong to gong. And in the past Booger Red has stepped into the ring expecting to whip his opponent when nobody else ever thought he stood a chance, and Red without an exception.

Bert Barton spent the week-end in Okmulgee.

Misses Hazel and Bernice Tinsley have been visiting Mr. and Mrs. Bill Williams the past week, and will continue their visit a few days longer.

Miss Alta Simmons spent Friday night with Beryle Simpson.

Misses A. E. Wesson and Willie Nichols spent Saturday afternoon with Beneva Brooks.

**"SHEIK" HERO OF THE SCREEN
GIVES WAY TO AMERICAN TYPE**

(By the Associated Press)

LOS ANGELES.—The day of the "sheik" in motion pictures is gone, killed by the "American type," according to leading stars and directors of Hollywood.

The foreign-looking heroes have lost their vogue, and fall styles in leading men for the films demand plain Americans.

The women who have to play opposite the male stars of the screen are said to have had a great deal to do with the passing of the sheik. Said one, "See America first, is my slogan, and that goes for leading men as well as for the Grand Canyon."

"Patent leather hair and passionate black eyes—worn half closed—are all right in their places, but they are not part of the make-up of a real American," declared another star.

A farmer at Lichtenburg, South Africa, recently found a crow that had choked to death on a 7 1/2 cent diamond.

**Attention Ladies**
